# INTRODUCTION

In this modern age, the world is shifting to cryptocurrencies. It needs time to ensure money by trading through digital currencies. For that purpose, different blockchains are working in which each one gives birth to its unique features. To this end, our team decided to create Betterment Digital (BEMD) which is based on binance smart chain that would not only provide us with safe holding but also give our holder and user a satisfying, secure, and business-friendly opportunity. We know that in the last few years and the rapid advancement in technology, there has been an increase in fraud, which has increased cybercrime. More than one million cyber threats are issued every day, and so far, more than 200 billion IoT devices need security. Cybersecurity has become a very bad issue these days. Decentralized nature is one of the biggest reasons for the increasing popularity of blockchain technology in Cryptocurrency. The platforms of Betterment Digital can be used at a global level, so this project has been designed to create a proper channel and a typical platform that will give outstanding benefits to its user through virtual currency tokens, BEMD token, and trading. The security of this project, which is also related to Binance Blockchain, makes the concept more valid, more secure, and revolutionary in its nature. We are delighted to announce to our holders and customers that they are being attached with a token, which has a team with years of experience in marketing and business. This white paper provides all basic usage guides, information, technical, ethical, and legal support to its holders and users.

# BETTERMENT DIGITAL

Betterment Digital (BEMD) is a decentralized platform exchange built on Binance Smart Chain network that eases the exchanging of any BEP 20 tokens with lowest platform transaction fees. Betterment Digital is created to solve the significant issue that the BSC investing market facing right now.

Betterment Digital Provides DeFi tools for token holders and businesses to buy, trade, swap, stake and secure crypto assets with confidence.

Our experts rated the platform of Betterment digital being of high quality swap and staking platform. Swap is a place where you can exchange your token with another easily & Staking is a place where you can stake your BEMD to get reward. BEMD holders have access to about the same number of markets and products with Betterment digital platform and we provides useful research and education for our token holders.

# MISSION OF BETTERMENT DIGITAL

Betterment Digital wants to build a decentralized trading platform that fulfills the real needs of the enterprise to support efficient digital asset management, trading.

Betterment Digital aims to keep users to the same ease of use and speed as a centralized exchange. Efficient, fully user-controlled, and secure with the current centralized system's processing potential and user experience. It also wants to provide more benefits as possible like zero trading fees, hundreds of currency trading options to international traders, exchange tokens without intermediaries, crypto wallets to its users, where they can deposit their digital assets as well as liquidity pool and stacking prizes, lottery entry, and other options.

## VISION

The Betterment Digital platform is an open-source P2P protocol built on the Fast Access Blockchain. Individuals and enterprises can trade or transact on the Betterment Digital platform with BEMD tokens and all other types of cryptocurrencies. Transactions are facilitated through a potent trading engine that can process payment or redemption transactions at a remarkably very high speed. Betterment Digital platform Designed with the needs of the international crypto trader, enterprise, and wealth manager. It has a fully decentralized digital asset management network, trading platform, and global payments system. In addition, Betterment Digital introduces Betterment Digital Swap, and Swap is a Decentralized Finance protocol used to exchange cryptocurrencies. It is similar to Uniswap & pancake swap. Betterment Digital platform plans to solve the problems that exist with centralized exchanges, namely, scalability, security vulnerabilities, low transaction processing, interoperability, and guarantees for transaction processing are prevalent issues. Traders can keep their funds, access private keys, and transaction information is secure and transparent. It is a fully autonomous and democratic platform.
